

PROMISES TO BE A SHORT SESSION

**Legislators Will Buckle
Down to Work from
Tomorrow Night.**

STAND BY LA FOLLETTE

**A Poll of the Senate Shows
Success for the Primary
Election Law.**

COST OF THE LEGISLATURE

Madison, Wis., Jan. 14.—The real work of the Wisconsin legislature will begin tomorrow night, when both houses will meet again and prepare for the work of the session.

Speaker Ray will then announce the assembly committees, and it is expected that here will be meetings of all of them on Wednesday afternoon, and that the legislature will be in full running order by the latter part of the week.

The assembly leaders, such as Speaker Ray and Assemblyman Albert R. Hall, claim that there will be no delay whatever in the handling of business, and their plans now are for a Saturday session next week and full week sessions until the legislature is ready to adjourn. If early promises the worth anything this legislature's business is going to be conducted with more dispatch than that of any previous session ever held in Wisconsin.

Will Support La Follette.
The legislature will support Robert M. La Follette in his demands for reform.

At least this is the belief now of the best posted men on legislative affairs at the capital and they say that there is no doubt that not only will a proper primary election law be passed but that the most of the taxation measures demanded by Mr. La Follette in his message will be passed.

Eighteen Senators Pledged.
Well posted legislators declared that a poll of the senate has already been taken and that eighteen of the thirty-three senators stand ready to vote for the measures which the public and Gov. La Follette as their representative demand. Who the eighteen senators are that are pledged to the La Follette measures Mr. La Follette's legislative friends refuse to say, but the information that this number stands ready to support Mr. La Follette in his reform movements is authentic.

Expenses of the Legislature.

It costs about \$200,000 to hold a session of the legislature. The session about two years ago cost about \$200,597.02. Of that sum \$17,531.60 was paid to senators for salaries and mileage. The assemblymen received \$54,559.40 for salaries and mileage. The senate clerk's employees received \$9,578 for salaries and \$5,283.60 was paid to copyists. The sergeant-at-arms employees in the senate received \$8,379, making a total of \$23,240.60 received in the senate. The assembly chief clerk's department cost \$11,228 while \$5,039.15 was paid out for copyists. The assembly sergeant-at-arms department cost \$10,887.50 or a total of \$27,154.65 for assembly employees. The chaplains of both houses received \$555 and \$300 went to the legislative visiting committee. The interstate fish commission received \$200 and \$479 was spent for the funeral expenses of two assemblymen.

Revision of Banking Laws.

It is not unlikely that an effort will

be made at his session to secure a revision of the State Banking laws, and to make the whole code of banking laws more strict in the interest of the depositors. State Bank Examiner E. I. Kidd says that the present laws relating to banks are insufficient, and sadly in need of revision. One instance of the existing law which is pointed out by Mr. Kidd in his report is the fact that though he finds a bank to be insolvent, he is powerless to take any steps to protect the depositors. He has no power to close up, or take charge of the bank as the national examiner has. Mr. Kidd says that nothing less than power to take charge of insolvent bank will protect the public from danger and loss.

Leaders in Assembly.
Already Assemblyman A. R. Hall of Dunn county is looked upon as the leader of the assembly. Mr. Hall is as popular with the new members as among the old and many of the younger members have gone to him during the week for advice on subjects with which they are not familiar and which Mr. Hall knows all about. Judge Orton and E. Ray Stevens are others whose power will be felt in the future deliberations of the assembly.

MARRIES SISTER OF TWO FORMER WIVES

**"Swiftwater Bill" Gates, a Klondike
Miner, Makes Third Alliance
with Lamore Family.**

Butte, Mont., Jan. 14.—William Gates, better known as "Swiftwater Bill," who has become noted on account of his Klondike strikes and his matrimonial experiences, has according to the story of one of his former wives, eloped from Butte with the third of the Lamore sisters, whom he says he will marry upon their arrival in Chicago or New York.

"Swiftwater Bill" has been married to Gussie and Grace Lamore, each of whom secured a divorce from him. Recently he returned from the Klondike where fortune had favored him, and was on his way to New York to organize a new mining company. He stopped in Butte to visit his former wife, Gussie Lamore, who is playing at a theatre here. She gave it out that a reconciliation would probably be effected.

Gates presented her with an interest in several of his new mines in the Klondike and everything moved along smoothly until yesterday, when "Swiftwater" and Belle Lamore, an 18 year old sister of Gussie took their departure for the East. Belle left a note stating that they were to be married upon their arrival in Chicago.

The deserted sister gaily remarked today: "Well, 'Swiftwater' is a good thing and we might as well pass him along. There are still three other girls in the family."

THREE GOVERNORS ARE INAUGURATED

**Yates of Illinois, Dockery of Missouri
and Durbin of Indiana—Great
Crowds Attend**

Springfield, Ill., Jan. 14.—The inauguration ceremony today of Governor Yates was simple. The day was ideal and it is estimated that twenty-five thousand persons witnessed the military-civic parade and other features.

Jefferson City, Mo., Jan. 14.—A. M. Dockery was inaugurated governor at noon today at the capitol. Chief Justice Burges presided. The largest crowd in the history of inaugural exercises was present.

Indianapolis, Ind., Jan. 14.—Winfield T. Durbin was today ushered into the governorship of Indiana with more elaborate ceremonies than ever before attended the executive in this state.

ROOSEVELT GETS HIS FIRST LION; TEDDY MAKES A REMARKABLE SHOT

**His Coolness Saves His Hunting Companions—
Shoots the Animal as It is Springing from
a Tree Upon Members of the Party.**

Meeker, Colo., Jan. 14.—Colonel Theodore Roosevelt has the pelt of a magnificent mountain lion to show as a result of his first day's hunting in the hills. He has also the satisfaction of knowing that his nerve and good marksmanship prevented a catastrophe to members of his party. If the first day's hunting may be taken as an index, the vice-president elect is slated for some exciting adventures during his stay in Colorado.

Governor Roosevelt and his hosts left Meeker Saturday morning at 9 o'clock, and four miles from town a fresh lion trail was struck. The dogs were unleashed, and after two miles hard riding up and down arroyos the animal was sighted in the distance, the snow forming a good background for his lean body.

Drove Him Up a Tree.
Long distance shooting was not the party's aim, however, and the pursuit was continued. The lion proved a good sprinter and led his pursuers three miles further before he took to a tree

safely beyond the reach of the snarling pack below him.

Dr. Webb and Philip B. Stewart, who are the visitor's hosts, pressed him to shoot, but Roosevelt insisted on lot deciding the shot, and straws were accordingly drawn. Fortune favored the vice president-elect and the shot was his.

The angry and impatient lion at this moment sprang snarling into the air toward the little party, and there was a sudden scattering with the exception of Dr. Webb and Roosevelt.

Made a Fine "Wing" Shot.
The latter hastily threw his rifle to his shoulder and fired, striking the lion fairly while he was in the air. As it was the beast narrowly missed the doctor as he struck the ground. Colonel Roosevelt hastily pulled him from the willing claws.

The dogs and the lion mixed for a few minutes, but so sure was the colonel's aim that the most of the fight had left the animal by the time he met the dogs. The skin was saved and will prove a handsome trophy.

VANDERBILT-FRENCH WEDDING REGAL SPLENDOR OF CEREMONY

**The Most Elaborate and Costly Wedding Gifts Ever
Given to an American Bride—Total Value
of Them Exceeds \$200,000.**

Newport, R. I., Jan. 14.—All the regal splendor that great wealth can produce attended the wedding at noon today of Miss Elsie French, daughter of Ormond French, and Alfred Gwynne Vanderbilt, whose name is synonymous with great riches.

Promptly at twelve o'clock the bridal procession moved slowly down the flower banked aisle to the altar. Dressed in a gown of rich ivory satin the bride was pronounced a dream of beauty. She carried a bouquet of white orchids and lilies. Rev. Charles F. Beattie, the rector, pronounced the

questions according to the Episcopalian ritual.

After the service the happy couple and 171 guests were driven to Harborview where a Delemonico breakfast was given in the great dining room. Later the couple received in the main hall under a bower of pink roses.

In the billiard room on long tables were displayed the most elaborate and costly wedding gifts ever received by an American bride. Young Vanderbilt's gift was a magnificent necklace of pearls with a large pendant valued at \$80,000. The total valuation of the gifts exceeds two hundred thousand. The honeymoon will be spent in Europe.

FIVE KILLED IN A PANIC.

**Cry of Fire Causes Wild Stampede in a
Hall.**

Chicago, Jan. 14.—By a boy's false cry of fire a stampede of a thousand persons, most of whom were women and children, at West Twelfth Street Turner hall, resulted in the death of five and injury of nearly a hundred. As the frantic crowd rushed to the entrances the converging streams on two narrow stairways plunged together in inextricable confusion on the platform at the head of the main stairway and rolled in a tangled mass to the street door. Over their prostrate, writhing bodies hundreds of others plunged and struggled until the entrances were choked with a mass of screaming, contorted humanity.

The killed are: Annie Goldberg, 7 years old; Beckie Lidsky, 15 years old; Regina Millenbach, 5 years old, died while being taken to County hospital; Mrs. Annie Solomon, 27 years old, died while being removed to County hospital; Birdie Ziedmann, 11 years old.

The audience was composed of people from the Jewish section of the city attending a matinee of the Metropolitan Dramatic company, presenting a Yiddish melodrama called "The Greenhorn," an adaptation from "The Streets of New York."

SAMUEL LEWIS DEAD.

**Was Prince of Shylocks and Shylock of
Princes.**

London, Jan. 14.—Samuel Lewis, the notorious money lender and usurer, who for years has been known the world over as the "Shylock of London," died suddenly at his home, 23 Grosvenor Square, today. He leaves enormous wealth. Among his clients were scores of peers and nobles. It is even hinted that the Prince of Wales and other royalties were on his books. When the money lender took up his residence in aristocratic Grosvenor Square there was immediate opposition from his neighbors, who considered that his presence would taint the social atmosphere. The opposition was withdrawn, however, when Lewis threatened to subject some of those who led it to a financial squeeze. They relented at once, and decided to grin and bear the money lender.

Emperor's Letter Among Loot.
Among the loot at Peking that fell to the lot of a Russian officer was the decoration of the Order of the Black Eagle and the autograph letter from Emperor William which conferred the insignia upon the emperor of China.

SENTENCE FOR GIRL'S SLAYER

**Jury Finds Joseph Keith Guilty of Kill-
ing Pretty Nora Kifer.**

Princeton, Ind., Jan. 14.—Jos. Keith will be hanged for the murder of Nora Kifer, his pretty young neighbor, in the village of Elberfeld, Ind. The jury which tried him returned a verdict at 4 o'clock, finding him guilty of murder in the first degree. The jury was out three and a half hours. The news that a verdict had been reached spread like wild fire and in a few minutes the court room was packed.

Keith, when his doom was announced, was overcome. His wife, who testified in his behalf, sobbed out her grief, while his son, Jesse, aged 15, looked on in mute sorrow. The boy had given damaging evidence against his father.

Nora Kifer disappeared from her home April 3. Keith is believed to have murdered her that night, hidden her body in an abandoned well, dragged it out and carried it, several days later, in his buggy at night to a point miles away, where it was thrown into a creek. The case against him was purely circumstantial.

PLAN A CLOSER UNION.

**Effort to Bring Ritualists of England
and United States Together.**

New York, Jan. 14.—The duke of Newcastle, who has been in this country for some weeks, has been one of the noted participants in several conferences held during the week with high church leaders among the Protestant Episcopalians of New York and Philadelphia. As a result of these conferences it is learned that a definite plan has been formed to bring into closer union the ritualists of England and the United States. The first efforts toward this union are to be made in New York, Philadelphia and Boston. It is the plan to extend the effort later to other parts of the United States.

Wm. Neufeld Is Executed.

Sing Sing, N. Y., Jan. 14.—William Neufeld, murderer of Mrs. Annie Kronman, his aunt, New York, Aug. 7, 1899, was executed at six o'clock this morning in the prison here. He confessed to the murder saying he needed money for gambling purposes. He hoped his life would be a warning to others. He exhibited great nerve.

Réret for Ketteler's Death.

Peking, Jan. 14.—Prince Chun, the younger brother of the emperor, has been chosen envoy to express to the German government regrets for the killing of Ketteler.

STREET CAR MEN WIN STRIKE

**Reading (Pa.) Traction Company Makes
Concessions Demanded.**

Reading, Pa., Jan. 14.—The strike of the employees of the United Traction company which was inaugurated last Tuesday came to an end today, the board of arbitrators having granted nearly every demand made by the strikers. A settlement was reached at 3:15 o'clock this morning. Organizer Jacob C. Taylor sent word to the motormen and conductors to man their cars at the usual hour this morning. The agreement reached by the arbitrators calls for the reinstatement of all employees discharged since Jan. 1; that 16 2-3 cents an hour be paid beginning Jan. 16; nine hours to constitute a day's work; one week early and one week late shifts; whenever a dispute arises between employer and employees which cannot be satisfactorily adjusted it shall be referred to a board of arbitrators.

STEAMER SINKS; 150 DROWN.

**Vessel Dashed on Rocks with Great
Loss in West River China.**

Tacoma, Wash., Jan. 14.—One hundred and fifty lives were lost in an accident which occurred four weeks ago to a passenger steamer plying on West river between Samchau and Canton. The steamer was overloaded, having on board 500 passengers. The decks were also piled high with its cargo, making the vessel topheavy. At Yung-ki, where the river takes a rapid turn and sharp rocks obstruct the passage in the center of the stream, the steamer's rudder gave way and it was dashed by a swift current on the rocks. A terrible explosion took place in the powder works at Hang-Chow, China, Dec. 26. Between sixty and seventy persons lost their lives. A portion of the powder works and scores of houses were destroyed. The accident is attributed to recklessness of workmen in handling explosives.

THREATEN TO USE DYNAMITE.

**Queer Request for Money Comes to
Four East Alton Men.**

Edwardsville, Ill., Jan. 14.—Four residents of East Alton received mysterious warnings this week that their homes would be blown up with dynamite if they did not comply with a request for money. The men are John Huebner, a member of the board of education; Frederick Penning, county supervisor; George Shillinger, township tax collector, and Leonard Hoehe, a well-to-do farmer. Yesterday morning Mr. Huebner found a letter nailed to the frame of the well in the back yard. It was a demand for money and gave directions for the deposit of a certain sum on a lonely road several miles from his place. Mr. Penning received his notice through the mails. The total demand from the four was \$1,410.

ROBERT BRUCE STILL LOOKING FOR WORK

"The man who fired the first shot in the battle of Manila Bay" has turned up in Belvidere where he is working the sympathy racket on the citizens. He is evidently the same man who worked Beloit a few months ago but he has changed his name somewhat. Instead of Robert Bruce he now calls himself Robert Vryce.

He is still looking for "\$500 prize money" and until he gets it will ask the people to help him eat—and drink. He, of course, is well acquainted with the Belvidere soldier boys who are fighting in the orient, just as he was with the Beloit boys. His story is a good one and as long as he can tell it in sympathetic ears he will continue to "look for work" (?) and for that \$500 prize money.—Beloit News.

Bruce was in this city last summer with the same story. At that time there was hardly a spot on his body that had not been marked by a weapon of some kind. He claimed that he was a gun captain on Dewey's flagship and fired the first shot from a six-pounder that opened up the battle of Manila Bay.

POPE APPROVES THE VATICAN BUDGET

**The Expenditures for Maintenance Are Expected To
Be About a Million and a Half.**

Rome, Jan. 14.—The pope has approved the Vatican budget for 1901. It provides for the receipts of 7,000,000 lire (1,700,000), and expenditures of 7,205,000 lire (\$1,450,000).

The report of the holy year shows that there arrived at Rome 169 pilgrimages with a total of 560,000 pilgrims, of which 315,000 were Italians and 245,000 were of other nationalities.

The contributions of the pilgrims to Peter's pence amounted to 20,000,000 francs (\$5,000,000), and the other offerings reached 30,000,000 francs (\$7,500,000).

The principal large contributors and the amounts they gave are:

	Francs
The emperor of Austria.....	100,000
The king of Spain.....	100,000
The king of Belgium.....	100,000
The duke of Norfolk.....	200,000

BURGHERS AIM TO TAKE PRETORIA

**Daring Boer Operations to
Recapture the Trans-
vaal Capital.**

BOTHA IS DESPERATE

**British Have So Far Succeeded
in Beating Off Attacks of
the Dutch Troops.**

CAPE DUTCH JOIN INVADERS

London, Jan. 14.—Daring Boer operations at Pretoria and Johannesburg constitute the latest developments in South Africa.

Early Saturday morning 1,400 of General Botha's eastern Transvaal forces hurled themselves against the railway connecting the two cities, south of the capital and 1-71-1117171 attacking Kalfontein, fifteen miles south of the capital and Zurfontein, ten miles north of Johannesburg.

General Knox's cavalry from Elandsfontein, the Rand gold fields garrison town, hurried north and drove the Dutch north after some sharp close-range fighting, which cost neither side seriously.

Zeerust was the scene of another unsuccessful attack by the burghers last Monday. Two days later they engaged General Plummer Gordon near Krugersdorp. General Boyes tackled the Boer companies at Senekal about the same time, killing Commandant Depreez and eight men.

Dewet's Men Shoot Peace Agent.

Lord Kitchener's Sunday bulletin to the war office contains a laconic indication of General Dewet's disinclination to entertain peace proposals. Three members of the Pretoria pacification committee, which recently received instructions from the British commander in chief to invite the burghers in the field to come in and surrender, reached the Boer lines in the Orange River colony last Thursday. They were promptly taken in tow by two of General Dewet's outposts, and escorted as prisoners to the raider leader's laager. One of them a British subject, was flogged and then shot. His two Dutch confreres were let off with a mere whipping.

This morning's London papers say that this incident removes all doubt of the queen's enemy in South Africa.

Cape Dutch Join Invaders.

The Cape Colony situation remains enshrouded in mystery. Development seems to be that the invaders have been joined by many Dutch in the central region of the colony. Today Brig. Gen. Brabant, president of the South African League, will meet the mayors of the Cape municipalities to outline a general scheme of defense.

Real Election Day Today.

Washington, Jan. 14.—Today is real national election day. The electors are meeting at the various state capitals to cast 292 votes for McKinley and Roosevelt and 155 for Bryan and Stevenson.

Explosion Kills Ten.

Manchester, Jan. 14.—An explosion in the Wilson hat works today killed ten and injured a large number.

Telephones to Arouse Sleepers.

One of the most frequent uses to which the telephone is put by French country subscribers is that of an alarm to wake them in the morning. Those who wish to be aroused at a given hour have only to advise the telephone administration the night before of the hours at which they wish to be rang up.

INVENTED A CAMERA TO TAKE COLORS

**E. F. Ives, a Philadelphia Artist, Said To Have
Solved the Problem**

Chicago, Ill., Jan. 14.—Romeo J. Steffens, the photographer, returned to Chicago last week with a photographic camera of remarkable construction, the invention of E. F. Ives of Philadelphia, which he claims will solve the great problem of color photography with which photographers have wrestled in vain for years.

Photographs can be taken with the Ives camera of a landscape or a surgical operation which have in them every bit of the color possessed by the original. All the intricate and beautiful color of a Swiss landscape, for instance, can be reproduced upon a transparency by the employment of the device invented by Mr. Ives.

The Device Is Simple.
The device is as simple, its inventor claims, as it is wonderful. The negatives are made through the agency of three colors—red, blue and green. Plates specially prepared are placed behind the red, blue and green

glasses, which are so arranged as to harmonize to blend with one another, and when the combination is exposed through the lens to an object or scene the colors are reproduced on the plate.

The negative is developed in absolute darkness, but it is fixed and washed like any ordinary negative. Transparencies are made from the negatives and all the colors contained in the object photographed are retained.

Valuable in Surgery.
The Ives kodak will be an innovation not only in photography but in surgery. Photographs of surgical operations can be taken with it which will be of great aid to surgeons. Mr. Steffens has already since his return to Chicago taken several pictures, which have attracted the attention of surgeons throughout the city. By means of the kodak the actual colors of the tissues and the veins and arteries can be reproduced as to be absolutely lifelike.

THE CHANGELESS PLAYS.

They wandered to the theater, I've been to see the show:
I've listened to the same old jokes we heard long years ago.
The villain died the same old way—his death was hard and slow—
The last act saw his finish, Tom, like twenty years ago!

The heroine, she suffered, Tom; you should have heard her weep;
Her hair was golden in its hue, for peroxide is cheap.
She found the missing will, though, Tom; she always did, you know,
When we went to the theater some twenty years ago.

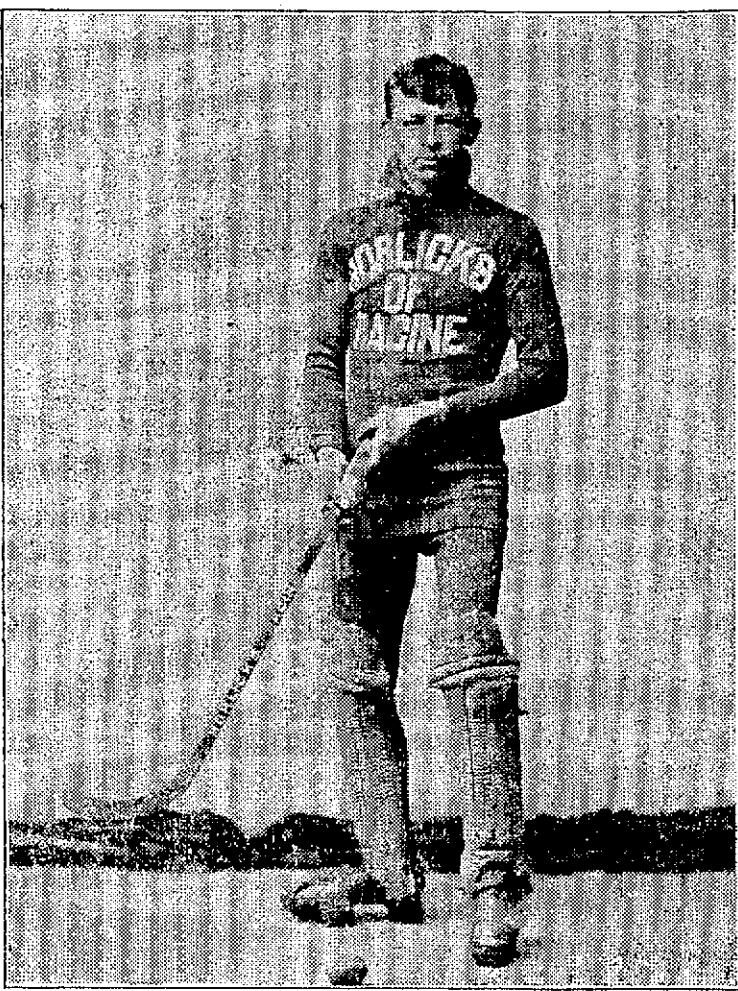

The jokes were just the same ones, Tom, about the main-law,
Likewise the goat, the stovepipe and the female suffrage law.
And, yes, they sprung the one about the good old baldhead row;
It sounded as it used to, Tom, some twenty years ago.

The hero struts about the stage and hoarsely whispers, "Ah,
I see it all!" And then the crafty villain mutters "Bah!"
The play is just the same, dear Tom; the plot is thickened so,
It looks the same as when we went some twenty years ago.

The soubrette is the same, old boy; she has the same old wink.
Her cheeks are just as radiant; they have the same soft pink.
She's billed as Little Tottie now, and, say, she doesn't show
Her age as much as when she played some twenty years ago.

The songs are full of "mother, dears," the star takes all the stage.
The jokes and other dialogue show very little age.
But youngest of the lot, dear Tom, the soubrette's cheeks still glow
As pinkly as they used to do some twenty years ago.

CHARLES SMITH, THE POLO WIZARD.

It is possible that Chas. Smith, the famous first rush of the Horlick Polo team will succeed Geo. M. Bates as coach of the candidates of the Janesville team which will play their first exhibition game at the rink tonight. Mr. Bates leaves tomorrow for a trip through Illinois and Michigan in the interests of the Western Polo

League and has notified Smith to be ready to take up the work. Smith is well-known in this city having played with the Racine team against the old Riverside team years ago. The game tonight will start promptly at 8:30 o'clock. Mr. Bates will referee and Messrs. McKinney and Slocum keep time.

She said that depended on what I wanted, whether it was Plymouth Rocks or Brown Leghorns or banties or what. So I said Plymouth Rocks, and she told me she would let me have a dozen of them for \$25.

"I knew that I couldn't get that much money, and I thought I might just as well buy eggs as set them under a common hen."

"That was a bright idea," "Yes, Mrs. McClellan told me it would be the best thing I could do, and then I could raise a dozen chickens and sell them for \$25 myself. Ma gave me the dollar to buy the eggs and I loaned me a hen what wanted to set. It takes a hen a awful long time to hatch chickens, though. I used to go out most every mornin' an raise her up to see if she had got any, and she squawked an pecked at my hand. Gee! But it was about three weeks before I got any chickens, and then there was only three of 'em. That old hen wouldn't wait for the others to hatch, an when I broke 'em open to see if there was any chickens inside of 'em I wish I had let 'em alone. I guess that old hen knew all right."

"What was the trouble?" Vance held his snub nose expressively between his thumb and forefinger.

"I was slidin down the kitchen roof," he continued, "an I knocked a board down, an it fell on one of the chickens an squashed it dead; an the other two was both roosters. I wanted some money one time an I sold one of 'em to the lady next door for a quarter. That was all she'd give me for it. I told her it was a blooded Plymouth Rock, but she said she didn't mind that, just so long as it would make a good fry. I kept the other one all summer an then took it to Mrs. McClellan an she bought it for me for it."

"She said that she'd trade me a pair of rabbits for it an I could make more money raisin rabbits than I could raisin chickens an the rabbits was worth \$1 a pair. So I took the rabbits. One of them was named Dick an the other Lizzie. I used to like Dick the best. Ma wouldn't let me keep them up in my room, so I had to build a place for them out in the wood shed an keep them there, except when I turned them loose. They was awful cute. Lizzie used to eat dough out of my hand. She liked dough better than anything."

"Haven't you got them still?" "No, I gave them away. I got kinder tired of tendin 'em, an they didn't have any little rabbits at all. I couldn't see how I was going to make any money out of 'em, an when I said anything about it pa he'd laugh."

"I ast Mrs. McClellan about it, an she said that hers had had two or three litters since she sold me mine, an she couldn't see how it was. Pa said they didn't have lucky names, at least Lizzie didn't. He said she ought to have been named Willie or Pete."

"Then the rabbit business wasn't a success?" "N'uh. I lost all I put into it exceptin the quarter I got from the lady next door for the little rooster."

"How about your mother?" "Oh, she was only backin me. She knew she was takin chances. I wish I had that dollar back, though. I need a dollar the worst way. Don't you know a good, easy way for a boy to get a dollar? I don't want to have to wait for it too long. I'd ast pa to give me one, only I ast him for one yesterday, an he wouldn't give it to me. I ain't goin to ast him again."—Chicago Record.

"I don't know what you mean. I didn't do anything. I told ma I wanted to make some money, an she told me to think up some way an she would help me if she could, and so I thought I might raise some chickens, so I went to Mrs. McClellan an ast her what she would sell me a dozen chickens for."

In his palmy, beautiful days almost every act of Hoyt was an anecdote, and there were very many of his acts. One that will appeal particularly to theatrical people is told by an actor as follows:

A Bit of Hoyt's Wit.

Chicago's Army of Teachers' pay roll has more than doubled in nine years and is now a little more than \$500,000 a month. There are 6,200 teachers, principals and superintendents on the city's pay roll.

TRAINS BURIED IN SNOW.

The Known Dead in Russian Snowstorms Number 120.

Odesa, Jan. 14.—Communication with the world has been reopened after ten days' isolation. The snow blizzard continued unceasingly for 100 hours, and it is reported that 120 persons perished. Eighteen thousand soldiers now are at work clearing the railroad tracks of snow. Passengers who walked in through the deep snow from the imprisoned trains tell awful stories of the sufferings of the railroad passengers who were overtaken by the storm. Thousands of persons left St. Petersburg, Moscow, Kieff and elsewhere for Odesa on Jan. 6 for the Russian Christmas, which, as the event proved, they were doomed to spend isolated from the world. For five days and five nights they were half starved and half frozen. The first train struck the blizzard south of Razdyelnaia and was soon stuck in a twelve-foot drift. The passengers were not alarmed, expecting that the line would be cleared quickly. They made themselves as comfortable as they could at the station. The expected help did not come and in the course of twenty-four hours three more trains arrived. There were then 1,800 persons huddled in the station with vanishing hope of relief. The food stores rapidly dwindled and the passengers became alarmed. They clamored that something be done. A telegram was sent demanding help, but there was no response. Another 24 hours passed and two more trains laden with terrified and hungry passengers arrived. They had occupied sixteen hours in covering forty miles. No mails have been received here for six days. Corpses have been kept unburied for eight days, as it has been impossible to inter them. The conduct of the railway authorities is loudly condemned. So far, only the most meager reports have been received from the district swept by the blizzard, and it is feared that serious loss of life has resulted in the smaller towns and villages.

Two Girls Burned to Death.

Buffalo, N. Y., Jan. 14.—Shortly before 4 o'clock this morning the "Buckingham," one of the handsomest apartment houses in Buffalo, was damaged \$100,000 by fire and Mary Spitzman and Clara Meyers, waitresses in the woman's cafe, were burned to death. The building was the principal structure of the F. B. Robins Pan-American exposition hotel system.

Insanity Decreases in Indiana.

Cherubusco, Ind., Jan. 14.—The Indiana board of charities has given out statistics showing that the total number of insane in the state is 4,509. In 1880 the rate of insane to the population of Indiana was 1 in 500. In 1892 the ratio was 1 to 600. Under the present census the ratio for 1900 is 1 to 558.

HOW TO GAIN FLESH

Persons have been known to gain a pound a day by taking an ounce of Scott's emulsion. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking Scott's Emulsion.

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

STOMACH RELIEF.

The stomach is more often overworked than any other part of the human body. Countless numbers of people eat too much, and nearly every person in the world eats things that do not agree with the system. The stomach is the first organ to feel the evil effect and to suffer. The overplus of food and the things that are unwholesome, or often mildly poisonous are emptied right into the stomach and it is given the impossible duty of digesting and assimilating all this stuff. Is it any wonder then that the stomach suffers? Is it any wonder that it needs relief? When a man is overworked in this fashion he simply breaks down. Who can wonder then that the stomach is deranged by this unjust burden and must refuse to do its work?

It is because of this ignorant and unnatural eating that most people are afflicted with some sort of stomach trouble, which is usually followed by liver or bowel complaint. For this same reason nearly everybody needs a stomach regulator to strengthen and invigorate the stomach and enable it to do its work well. In this situation

JOHNSON'S STOMACH TABLETS.

are the best possible remedy, because they give quick, sure and permanent relief. They act directly on the stomach, assisting it to rid itself of waste food and poisonous matter. They heal and strengthen the inflamed or weakened surface of the stomach give fresh vigor to the whole organ and aid it in its work of separating the strength and nourishment in the food from the waste matter, so that the valuable parts may be turned in new, healthy blood, bone, flesh and muscle. In this way it keeps men, women and children strong and healthy.

JOHNSON'S STOMACH TABLETS are invaluable in all cases of malaria, indigestion, constipation, diarrhoea, biliousness, and every form of stomach, liver and bowel trouble. They are unequalled for this purpose and never fail to effect a swift and lasting cure when the directions are faithfully followed.

As a gentle laxative JOHNSON'S STOMACH TABLETS are without an equal. They never fail to cause a movement of the bowels, no matter how acute the case may be. They can also be used as a purgative by doubling or tripling the dose. If people could be made to realize how important to the health is the regular movement of the bowels, they would keep these tablets always at hand.

JOHNSON'S STOMACH TABLETS purify the blood, tone and keep the system in order and cure that tired feeling. They are for universal use. Even though you feel better a tablet will make you feel better.

AN ORDINANCE relating to the installation and maintenance of electric return circuits for conveying electricity used as a motive power for railroads and street railways.

The Mayor and Common Council of the City of Janesville, Wisconsin, do hereby enact and ordain:

Sec. I. Every person, firm or corporation, operating, owning or controlling a railroad or Street Railway within the city of Janesville, upon which cars, trolleys, or conductors shall be operated or propelled by electricity as the motive power with a grounded return circuit for conveying the electricity, shall install and maintain a metallic return circuit, and that there will not be a variation in difference of potential exceeding one half volt between any two measurements at the same time at points along and upon said metallic return circuit within a distance of three hundred feet or less from each other. Such metallic return circuit shall be installed and maintained in accordance with the provisions of the ordinance of the city of Janesville, now or hereafter in force.

Sec. II. Each metallic return circuit shall be installed and in use on or before the first day of July, 1901.

Sec. III. Any person, firm or corporation violating the terms of this ordinance, or who fails, neglects, or refuses to comply therewith shall upon conviction thereof be fined not less than twenty-five dollars nor more than fifty dollars, and such person, firm, or corporation shall be deemed guilty of a separate and distinct offense for every day during which such person, firm or corporation violates, fails, neglects or refuses to comply with any or all of the requirements of this ordinance.

Sec. IV. This ordinance shall take effect and be in force from and after its passage and publication, which publication shall be for three successive days.

Passed Jan'y. 7th, 1901.

Approved, VICTOR P. RICHARDSON, Mayor.

A. E. BADGER, Clerk.

ARMY CANTEN MISFORTUNE.

The senate has concurred by a decisive vote in the house amendment to the army bill abolishing the canteen. Senators unite with representatives in disposing of this question in accordance with political, not military, expediency. They treat with indifference the views of the secretary of war and the expert opinion of army officers and enact harmful legislation clamorously demanded by the Woman's Christian Temperance association. It would be another matter if that organization would demand that there be no canteen at the capitol.

This is not because congressmen have any respect for the opinions of that organization, but because they believe that in this instance there are more votes to be lost by disobeying its instructions than will be lost by obeying them. The abolition of the canteen will increase drunkenness in the army and thus tend to demoralize it. That counts for nothing. Where votes are concerned all other considerations yield.

While the temperance women cannot themselves vote, congressmen believe that can influence many votes. It is apparent to these civilians who are striking at the efficiency of the army that there is only a languid interest in favor of the canteen outside of purely military circles. Certain army officers can exert great influence in congress in other directions. They can lobby through personal legislation or defeat legislation designed to deprive them of soft jobs. But they have no votes behind them, and when a question comes up like this of the canteen army influence, even though exerted on the right side, is ineffectual.

The liquor interest, for which many congressmen have respect, has been neutral in this contest. Probably it would prefer to see the canteen abolished, believing that without it soldiers would drink much more than they do and pay more for every drink they take. Certainly the saloon men near army posts will be glad to have the canteen abolished.

The mass of the people who have no personal knowledge of the matter are inclined to believe that the officers, who are in close touch with the soldiers, who have to care for them in camp and lead them in battle, are interested in having those soldiers as efficient as possible, and know better than politicians or fanatics in petticoats or pantaloons how this efficiency shall be secured.

But, as congressmen well know, people generally will not get excited if the canteen is abolished, while some may get excited if it is retained. Under these conditions congressional duty is plain. The canteen must go and the army get drunk—in the interests of temperance.—Chicago Tribune.

The Tribune has sized up the question in a nut shell. A lot of intelligent law makers have permitted themselves to be influenced by a lot of sentimental women and fanatical prohibitionists, whose mission in life is to exploit a hobby. The abolishment of the army canteen is as impractical as would be a state prohibition law in Wisconsin. It will result in more drunkenness in the army and soldiers' homes than ever before, and a victory for saloons and liquor sellers. The demand for the canteen was a unit so far as the army officers were concerned, and the judgment of congress as well as public opinion was with the army on this question. It is one of the instances where men in authority sacrificed the courage of their convictions to policy and doubtful expediency.

CONDITION OF THE TREASURY.

Governor La Follette's message indicates that the treasury is depleted and that but for the advance of \$50,000 by one of the railroad companies the balance on hand would be less than \$5,000 on Jan. 1, 1901. That liabilities of \$100,000 will be incurred during the next sixty days, and that unpaid appropriations of some \$320,000 are carried over from the last session of the legislature.

These figures would be startling were it not for the fact that the condition of a treasury, like the size of a bank account on a given date, is sometimes misleading. A man's financial standing is not determined by his cash balance at a given date, but by his available and prospective resources to meet liabilities. This is true of the state treasury. The legislature two years ago provided resources for meeting the budget of the biennial period. One of the last acts of the session of 1898-9 was to pass an appropriation bill of something over \$700,000 for buildings at the university, home for feeble minded, state reformatory and other state institutions. The governor refused to sign the bill, because he feared that money would not be in sight to meet the requirements, but as time went on liberal receipts warranted spending a part of the appropriation, and as a result, the university building was erected, as well as one at Chippewa, and in all some \$400,000 was used. The balance of the appropriation not yet expended can hardly be considered

a liability. It is canceled by limitation.

The tax levy and corporation payments will supply the treasury with ample funds before the close of the present session, and it of course remains for the legislature now in session to provide for the next two years.

Until the state provides for a fixed treasury balance, the same as the United States does with its gold reserve, there will always exist certain seasons of the year when the cash balance on hand will be small, and the commencement of a calendar year usually makes the smallest exhibit. A newly elected governor comes into possession of the office at this period and the balance sheet very naturally presents a discouraging outlook. The situation is not always as bad as it appears on the surface. The people have the utmost confidence in Governor La Follette, and will heartily endorse any recommendation along the line of practical economy and reform.

EDUCATIONAL SYSTEM.

The recommendation in Governor La Follette's message concerning country schools, will be heartily endorsed by the people of the state. The governor makes the startling statement that only one out of every one hundred pupils in country schools ever graduates from a high school course, and that the service is so insufficient that people are obliged to move into the cities to educate their children. He recommends better equipment for the district school, as well as adding to the course of study a practical branch in agriculture. This is a thoughtful suggestion and worthy of hearty endorsement. The state spends large sums of money every year in the interests of higher education and for the benefit of a very limited class as compared with the masses. While the university is an honor to the state, of which every citizen is proud, the great university of life where the masses are trained, should be entitled to first consideration. The success of the higher schools of learning depends largely upon the intelligence of the common schools.

Governor La Follette is in touch with educational methods, and realizes the importance of reaching and helping the masses in practical ways.

The southern states are willing to tax the negro, whether he receives representation or not. In their relations toward the negro those states which have disfranchised many, resemble England in her attitude toward the American colonies.

We can now explain the silence of Great Britain over our proposed canal legislation. She had a full hand up her sleeve in the shape of a thirty year lease of the San Juan river in Nicaragua.

Whether there is any wage slavery or not in the south, class consciousness has shown its teeth to such an extent, as to practically annul the fourteenth amendment.

The revival of the whipping post in Delaware may smack of barbarism, but it is more effective than three good meals and a warm bed in some first-class jail.

Congress has abolished the army canteen; it now remains to be seen if the morals of the army take an upward or a downward slant.

Apparently the Boers are familiar with only one plan of battle, but it seems to be applicable to an infinite variety of circumstances.

The naval academy seems able to turn out competent officers without the assistance of Tobacco sauce.

If the majority of burghers have returned to their farms conquered, the minority must be hustlers.

Congress, the wolf, seems capable of meeting little Red Riding Hood, the surplus, in the woods.

Why doesn't Cleveland propose a rummage sale of democratic politicians?

Mr. Dooley says, "But the trouble is the crusade don't last after the first sprint."

The river and harbor bill is nearly ready to do business with the surplus.

Mr. W. F. Hayes, Specialist:—Dear Sir—I wish to compliment you on the fine success you have attained in fitting my eyes with glasses. I have been troubled greatly for the past two years with headaches and dizziness, caused from imperfect vision. You have relieved me entirely from that, for which I am very thankful to you. As my profession demands an excessive strain on the eyes, it is necessary that the glasses fit accurately, and that you have accomplished.

The glasses you fitted for my daughter give the best satisfaction. Again thanking you and wishing you the success you merit. I am, very respectfully yours, W. T. THIELE, B. M., Professor of Music.

HORSE BADLY CUT
IN A RUNAWAY

A horse belonging to J. H. Burns, hitched to a cutter, ran away last evening at about 6:30 o'clock and was stopped near Sheridan's livery barn on West Milwaukee street.

Mr. Burns' son Joe had been driving and returned home shortly after six o'clock. He drove up to the barn and started to get out of the cutter. As he stepped out he put his hand on the dashboard of the cutter and in some way his hand slipped between the top of the dash and the iron rod on top of it. He wrenched his thumb badly and in getting it loose he dropped the lines. The horse whirled around, tipping the cutter over and ran out of the yard before young Burns could get to her head. She ran down to Milwaukee street and then kept on down Milwaukee street across the bridge and on up to Sheridan's barn where she was stopped.

The horse was badly cut around the hind legs from striking against the sleigh bells and the runner. Every jump brought her legs against the bells and runner and when she was stopped her hind legs from the hoof up to the hock looked like pieces of raw meat.

Dr. E. L. Roberts was called and took over forty stitches in closing up the wounds.

BATCH OF DRUNKS AND DISORDERLIES

Judge Fifield of the Municipal Court
Makes Quick Work of a Lot
of Sunday Roysterers.

Chief Hogan brought a bunch of young men before Judge Fifield this morning and made a charge against them of being drunk and disorderly. John Heacock, a farm hand, said he worked for Sim Simmons on the Indian Ford road five miles north of town. He came to town Saturday and filled up with whiskey. He was fined four dollars and costs, in all \$5.40, which he paid.

James Arner was also charged with being drunk and disorderly. He pleaded guilty and was given his choice of going to jail for seven days or paying \$5.20. He settled.

Samuel Cooley, Jr., was also up on the same charge. He had a bad cut in his lip and looked as if he had been in battle. He was given his choice of paying \$5.30 or going to jail for seven days. He went to jail.

Alex. Stark, who claimed to be a university student at Madison, driven out by small pox had evidently been taking whiskey to kill the germs of the disease. He had the germs well drowned when picked up by the police. He went to jail for five days, not having the \$3.20 necessary to pay his fine and costs.

E. Hooland was also arrested for being drunk and disorderly. He was given eight days in jail unless he could pay his fine which with the costs amounted to \$5.50.

William Kelly, a young man twenty-three years of age and a prominent member of the White Light club pleaded guilty to the charge of being a common vagrant. Judge Fifield told him that his name appeared on the court records almost as often as that of Patsy Griffin. He sentenced Kelly to the county jail for twenty-five days at hard labor and told him that if after he was released he came up again he would make it six months.

MARINE BAND CONCERT

An Excellent Entertainment at Myers
Grand—No Lack of Sympa-
thetic Appreciation.

A fair-sized, but not a large audience greeted T. P. Brooke and his marine band at the Myers Grand on Saturday afternoon. But if appreciation and responsiveness count for anything this excellent musical aggregation has nothing to complain of in Janesville. From the opening number to the close every selection was accorded hearty appreciation, and the program was extended to double its original length. Mr. Brooke, with his breast covered with decorations accepted the commendation graciously and gracefully and impressed all as much by his charming manner as by his skill as a leader.

Too much cannot be said in praise of the entertainment. Each of the thirty members of the band was an artist on his instrument and in the wonderful range attained every human emotion was interpreted. The trombone solo by Mr. Simons showed in fine style the capacity of that instrument. The program closed with the Star Spangled Banner played standing to which the audience replied with the same sign.

PIPE COVERING SAVES COAL.

Furnace Owners Will Be Interested
in This New Work.

Irwin & Corey of Rockford, Ill., are in the city and will begin work tomorrow on several heating plants in private residences. They have a special pipe covering composed of asbestos and felt which is moulded in a continuous piece on furnace pipes and will retain fully from 20 to 40 per cent of the heat which otherwise escapes into the basement. A covering for the dome of a furnace is also prepared by this firm to save the heat from the top of the furnace. The cost for this work is small in comparison with the amount of saving in one year. Messrs. Irwin & Corey have just completed a number of jobs at Edgerton, all of which have been highly satisfactory, as the following letter will prove.

Edgerton, Wis. Jan. 7, 1901.
To Whom It May Concern: This is to certify that we have had our furnace pipes covered by Messrs. Irwin & Corey of Rockford, Ill., and consider that they have done us a good job, at a reasonable price, and can cheerfully recommend them to anyone in need of such work as people who understand their business. It will pay anyone that has a furnace to have the pipes and dome covered as it will save the cost in coal in one season.

Respectfully yours,
W. T. Pomeroy,
E. C. Hopkins,
Henry Johnson.

A special covering for hot water and steam pipes is also prepared by this firm as well as a covering for water pipes to prevent their freezing. Estimates given on any work. Telephone 668, giving address or drop a postal to Irwin & Corey.

CHINESE SIGN JOINT NOTE.

Peace Commissioners Affix Signatures to Agreement.

THE WAR IS PROBABLY OVER.

Li Hung Chang Has Bright's Disease. So There Is Talk of a Successor for His Place—The French Defeat the Boxers.

Peking, Jan. 14.—The joint note of the powers has finally been signed by the Chinese peace commissioners. It is understood that the malady from which Li Hung Chang is suffering is Bright's disease. He was feeling worse yesterday. Prince Ching has protested to the court against the appointment, said to be contemplated, of Viceroy Chang Chih Tung as a plenipotentiary in the place of Li Hung Chang. He thinks the latter's advice absolutely essential, although he believes it might be advisable to appoint a third plenipotentiary for China, and reiterates his desire for the appointment of Sheng, who would be acceptable to the foreigners.

Chang Chih Tung May Serve. So far as Chang Chih Tung is concerned, the envoys who know him personally say that, while he is strongly anti-foreign and has never made any secret of his likes and dislikes, they believe he would be a satisfactory representative of the Chinese and there would not be any objections to him on the score of his recent utterances. Indeed, some of the ministers think it would be wise for China to make Chang Chih Tung a plenipotentiary.

French Kill 1,000 Boxers. Shanghai, Jan. 14.—The Italian consul at Shanghai, in explaining the presence of Italian warships at San Mun Bay, says they went there for target practice. It is again reported here that the allies are preparing to enter the Province of Shan-Si. A French force is reported to have defeated a body of Boxers west of Pao-Ting-Fu, killing a thousand.

Athlete Has Bad Fall. Seattle, Wash., Jan. 14.—William F. Cooper, a young athlete of this city, while performing a simple acrobatic feat at the Y. M. C. A. gymnasium last night, fell, and now lies in the general hospital, completely paralyzed from his shoulders down.

He fell in the back of his neck, and it is thought that he has either dislocated or broken his spine about the first dorsal vertebra. Physicians who are attending the case are inclined to doubt his recovery. An operation will be performed today.

Two Men Killed in Wreck. Belleville, Ill., Jan. 14.—A serious freight wreck occurred here on the Illinois Central, resulting in the death of two. A double-header extra ran into the rear of a through freight, telescoping six cars of merchandise. Brakeman Ring, it is said, went to sleep in the caboose and failed to flag the extra. The dead are: W. M. Ring, brakeman, of Du Quoin; W. A. Wing, conductor, of Coulterville.

Fear a Famine in Alaska. Victoria, B. C., Jan. 14.—According to telegrams which reached Skagway prior to the sailing of the steamer Danube there is a food shortage at Circle City and on the lower Yukon, amounting almost to a famine in certain commodities. Flour is held at \$45 per sack and is purchasable only from men with outfits, the stores having run out. Potatoes, bacon, sugar and rice are not obtainable at any price.

Bind a Family and Rob a Safe. Versailles, O., Jan. 14.—Five masked burglars last night robbed the farmhouse of Henry Stroker, near this place, of \$850. Mr. and Mrs. Stroker, and their son, Grant, were bound and gagged till they told where the safe was in which the money was kept. Besides the money the robbers stole jewelry and horses and then escaped.

Wreck on Northern Pacific. Seattle, Wash., Jan. 14.—Northern Pacific passenger train No. 3, west bound from St. Paul, to-night broke through a culvert in a gorge of the Kakima river near Ellensburg, Wash. Several coaches were derailed, but without loss of life, although the cars are reported totally wrecked.

Four Hundred Fishermen Are Missing. Yokohama, Jan. 14.—It is officially reported that 400 fishermen are missing and that they are supposed to have perished in a storm Jan. 10 off the west coast.

Dies on the Way to Be Pardoned. Jeffersonville, Ind., Jan. 14.—Louis Baker, who was serving a four-years sentence in the reformatory for burglary, was pardoned Wednesday by Gov. Mount. Baker was in the last stages of consumption. His father arrived the night he received his freedom and the young man died while making a confession to his parent.

Edward McDermott of this city, who was serving a life term in the Michigan City prison for murdering Barney McArdle and John Keefe here in 1881, has been pardoned by Gov. Mount. McDermott has served almost 20 years in prison.

Get Long Terms in Prison. Pottsville, Pa., Jan. 14.—William R. Martin, James Kennedy, Frank Green, Patrick Murphy, William Murphy and John Carson, tramps who were on trial all this week for attacking Mr. and Mrs. Jacob Baker, an aged couple of this place, have been found guilty and sentenced to ten years' each solitary confinement.

BRIDE DRINKS TOAST IN ACID.

Lillian Schilling, Young and Beautiful, Kills Herself.

New York, Jan. 14.—"Drink to my twenty-second birthday. You'll never see another," cried beautiful Lillian Schilling to a score of merry friends whom Mrs. Henry Harris, 193 Scholes street, Brooklyn, whom she was visiting, had invited to surprise her.

With shouts of merriment and laughter at her prophecy the toast was drunk, and Mr. Harris, the host, laughingly gave the young woman 22 blows on the back in token of the day.

As the guests applauded the one in whose honor they were gathered sank back in a chair.

"I'll never see another," she moaned again. Her face turned livid and she fell to the floor.

"I've killed myself," she gasped as the wondering guests gathered about her. "I'll never see another birthday. I killed myself because all my happiness was gone."

They noticed then that her glass had fallen to the floor. The yellow liquid it had contained already was discoloring the carpet. The toast she had proposed she had drunk in carbolio acid. An ambulance hurried her to St. Catherine's hospital, but just as she was put on a cot she died.

She was a bride of only a few months. Several weeks ago she quarreled with her husband and went to live with her friend, Mrs. Harris.

Little Food at Circle City. Victoria, B. C., Jan. 14.—According to telegrams which reached Skagway prior to the sailing of the steamer Danube there is a food shortage at Circle City and on the lower Yukon, amounting almost to a famine in certain commodities. Flour is held at \$45 per sack and is purchasable only from men with outfits, the stores having run out. Potatoes, bacon, sugar and rice are not obtainable at any price. The steamer City of Topeka was successfully raised on the night of Jan. 3. She will be brought to Seattle for repairs.

Son of Wealthy Farmer Is Lost. Rockford, Ill., Jan. 14.—Frank G. Thompson, son of a wealthy farmer living near Steward, is missing from his home, and it is believed has been kidnapped. A reward of \$500 has been offered by the youth's father for any information concerning his whereabouts and double that amount will be paid for his return.

Kills His Wife and Child. Albany, N. Y., Jan. 14.—Louis Currier, aged 40, cut his wife's throat and at an early hour this morning broke his son Archie's head with a baseball bat. He took a dose of Paris green and then cut his throat from ear to ear with a razor. All three are dead.

To Make Boys Like Early. "I have two sons for my two boys," says a Philadelphia man, "one new and expensive; the other very old and ugly and worn. They own these suits in common, and the boy who gets up first in the morning wears the good one as a reward. Both boys are fond of dress, and so this scheme works well."

Erie Makes Telephone Tests. Interesting telephonic tests have been made on the Erie road recently. An instrument was attached to the telegraph wires and a conversation between officers of the line carried on between Akron and Galion. The experiments are being made with a view of substituting the telephone for the telegraph in signals and train orders.

Protest Against Blabbers. Under the headline, "Bounce the Blabbers," a Cedar Rapids paper makes vigorous protest against the chattering who disturb theater and lecture audiences. It offers a reward of \$5 to the first usher who will "go after such idiots in the proper manner," and refers to one of them as having a mouth that "would be a profitable enterprise if turned into a windmill."

BAD BLOOD

Reveals itself in many ways. Sometimes the impurities in the blood mark the skin with blotches, pimples, boils or other eruptions. Sometimes the result of bad blood is rheumatism or a debilitated condition which is popularly described as "feeling played out," hardly able to drag myself around.

The impurities and poisons which corrupt the blood, clog the liver and cloud the skin are removed by the use of Doctor Pierce's Golden Medical Discovery. It does more than eliminate the poisons; it increases the activity of the blood-making glands so that there is an increased supply of pure, body-building blood. It brightens the eyes, cleanses the skin, and gives new physical energy.

Accept no substitute for Dr. Pierce's Golden Medical Discovery.

"I thank God for the good your medicines have done me," writes Mr. James M. Sizemore, of Mitchell, Lawrence Co., Ind., Box 501. "I was not well for two years. My throat was always sore, head ached and back ached nearly all the time. My weight was 155 pounds. I was taken sick with typhoid fever, and when the fever left I had such a pain in my left side I could not breathe without pain. I thought I must die. My wife went to the drug store and procured a bottle of Dr. Pierce's Golden Medical Discovery and a trial of his 'Pleasant Pellets.' I discontinued the use of my doctor's medicine and began with the 'Golden Medical Discovery' and 'Pellets.' I at once began to feel better; the pain soon left my side and I could breathe without pain. In a week or so I felt so good I could not stay in the room. I began to walk about the streets; I felt better each morning. After a month's use of the medicine I was well. I was over a year ago. Now I weigh 184 pounds and feel better than ever in my life."

H. D. M'KINNEY WAS GIVEN A GOOD SCARE

Horse Got Out of His Barn, and He Thought It Was Stolen—Found in a Farmer's Barn.

H. D. McKinney was given a scare early yesterday morning when one of his men came to his rooms and told him one of the horses was missing, and he thought some one had been into the barn during the night and taken her.

The police were notified and after a thorough search concluded that the horse had escaped from the stall without help and was roaming around at large.

A search was at once made of the surrounding country and the animal located in a barn near the Sloan farm where she had been placed by a man who had found her running around loose.

In order to get out of her stall she had to open two doors, one a hair and was fastened with a liasp and hook and an outer door that opened out and was also hooked. It would seem that it was almost impossible for a horse to open both doors without outside help, but there were no footprints in the snow around the doors so she must have opened them herself.

The animal was not hurt by her pleasure trip and Mr. McKinney will see to it that the doors are fastened in a way that it will be impossible for her to go out the same way again.

Sidewalks Need Attention.

It would approximate an act of saving grace if the storekeepers throughout the city would sprinkle their sidewalks with ashes, sand sawdust—anything by which pedestrians could secure a firm foothold. As it now stands they are forced to teeter cautiously along like a cat with four sore feet, presenting a picture far from alluring to the eye, and decidedly uncomfortable to the one making the trip.

Particularly in the morning when the working people start out on their

daily business. A fall which would incapacitate the victim for either business or pleasure can hardly be contemplated with pleasure, but to the wage-earner it might be a very serious matter. A little attention to this crying need on the part of several would be a public benefice and would not make any serious inroads into anyone's income.

Day of Prayer and Service.

Tuesday, Jan. 15, has been set apart as a special day of prayer and service at the First M. E. church. The meetings are growing in interest and power. With the exception of Saturday there will be two services each day this week, 8 p. m. and 7:30 p. m. On Tuesday there will be services as follows: 6:30 a. m., consecration service in the church; 7:30 a. m., family prayer in all the homes of the church; 10:30 a. m., prayer and praise service in the church; 3 p. m. and 7:30 p. m., special evangelistic services in the church.

A. B. Elmer, an employee of the Choate-Hollister company was badly injured at the factory last Saturday while setting up a piece of heavy machinery. A heavy piece of iron slipped and fell to the floor striking him in the foot and breaking two bones. He will be laid up for some time.

Millionaire Lawyer's Generosity.

William Astor Chanler, the millionaire New York lawyer, recently defended one Henry Allshoe, who was acquitted. A few minutes later Chanler found him shivering in the lobby. "Here, take my overcoat," said the pitying Croesus, at the same time slipping a bill into the fellow's hand, and before the latter could even thank him he jumped into a passing cab and was driven away.

Japan's Naval Power.

Japan will shortly be the strongest naval power in the far east. Three new warships have lately arrived from England, France and Germany, and the Hatsuse is expected from England. In mere tonnage alone, the four new vessels surpass the total tonnage of the eleven Japanese or the twelve Chinese ships that were present at the great sea fight in the Yellow sea.

But Not Ornamental.

The nervous young man backed into the nearest chair. The fair girl glared at him. "You're a bird!" she cried sarcastically.

"Why—er—what?" he gasped. "You're on my hat!" she fairly screamed.—Philadelphia Press.

Preposterously Incorrect.

"Mandy, is that Mr. Flunkins who comes to see you a young man of correct habits?"

"Not at all, auntie. He doesn't seem to know a thing about flirting or making eyes at a girl."—Chicago Tribune.
